** We are continuing to develop the week and other guest artists will be announced soon!

ArtSource summer residency offers art educators an immersive professional development experience that is run by teachers for teachers. This summer's theme, "Beyond Tradition", will look at the benefits of traditions and moving forward beyond our current practices. As artists and educators we seek to find ways to weave innovative creative experiences into our practice. This is an opportunity to reawaken the deeper reason for teaching and making art.

What is included in this amazing \$600 residency experience?

- Engaging presenters that share cutting edge thinking in art education.
- Ample art studio time to work on your own ideas.
- Opportunity to collaborate and make new connections with other art teachers.
- A college campus environment with time to explore the outdoors.
- All-inclusive cost for presentations, lodging and meals.
- Scholarships available for CAEA members.
